

In the Application of:

KOCH et al.

Serial No. 10/506,974

Docket No. 47370

IN THE CLAIMS:

1. (Cancelled)
2. (Cancelled)
3. (Cancelled)
4. (Cancelled)
5. (Cancelled)
6. (Cancelled)
7. (Cancelled)
8. (Cancelled)
9. (Cancelled)
10. (Cancelled)
11. (Cancelled)
12. (Cancelled)
13. (Cancelled)
14. (New) Compounds of formulas

wherein R is independently selected from the group consisting of methyl, ethyl, propyl, i-propyl, n-butyl, i-butyl, tert-butyl, n-pentyl and i-pentyl.

15. (New) A Method for the preparation of compounds according to claim 15, said method comprising reacting an alkoxy substituted aromatic compound with isoprene in the presence of an acid catalyst, wherein said alkoxy substituted aromatic compound has the formula:

wherein R is independently selected from the group consisting of methyl, ethyl, propyl, i-propyl, n-butyl, i-butyl, tert-butyl, n-pentyl and i-pentyl.

16. (New) A method for the preparation of compounds of the formulas

wherein R is independently selected from the group consisting of methyl, ethyl, propyl, i-propyl, n-butyl, i-butyl, tert-butyl, n-pentyl and i-pentyl,
said method comprising the step of oxidizing a compound of claim 14.

17. (New) The method according to claim 16, wherein the oxidation is carried out using oxygen as an oxidizing agent.

18. (New) The method according to claim 17, wherein the oxidation is carried out in the presence of a metal compound, where the metal is selected from the group consisting of manganese, iron, cobalt, chromium, nickel and copper.

19. (New) The method according to claim 17, wherein the oxidation is carried out in the presence of an N-hydroxy-imide.

20. (New) The method according to claim 17, wherein the oxidation is carried out with the aid of phase transfer catalysis.

21. (New) The method according to claim 18, wherein the oxidation is carried out in the presence of an N-hydroxy-imide.

22. (New) The method according to claim 16, wherein the oxidation is carried out with the aid of phase transfer catalysis.

23. (New) Compounds of formulas

or

wherein R is independently selected from the group consisting of methyl, ethyl, propyl, i-propyl, n-butyl, i-butyl, tert-butyl, n-pentyl and i-pentyl.

24. (New) Pharmaceutical or agro-chemical active compounds comprising at least one compound of claim 23.

25. (New) UV filters comprising at least one compound of claim 23.
